Computer Network Systems Administration Faculty

Michigan Technological University's School of Technology invites applications for one faculty position in the Computer Network Systems Administration (CNSA) program starting August 2008.

Responsibilities

The successful tenure-track candidate will be expected to teach undergraduate/graduate classes and laboratories, create innovative instructional materials and laboratory experiences including web-based instruction, establish a record of sustained scholarship, develop sources of external funding for applied research and projects with industry, promote the CNSA program through local, regional and national engagement, participate in program assessment activity related to accreditation, and perform student advising and other departmental service, including internal and University committee work.

Qualifications

Applicants must have: (1) an earned doctorate in Computer Information Systems, Computer Science, or a closely-related field; (2) evidence of strong oral and written communication, computer and presentation skills; (3) a commitment to undergraduate and graduate teaching and student success. Preference will be given to those also having one or more of the following: teaching experience; relevant technical certifications or extensive relevant industrial experience; professional registration. The successful applicant will demonstrate appropriate technical expertise to teach courses such as storage area networking, computer OS architecture, VoIP integration, scripting/programming, LDAP integration, and network security design and implementation.

Salary

Salary and academic rank will be commensurate with qualifications and experience.

Application Information

Screening of applications will begin immediately and continue until the position is filled. Interested individuals must submit a letter of application indicating interest in the CNSA faculty position, a description of how the applicant meets the required qualifications for the position, a detailed resume, the names, addresses, and phone numbers of at least three current references, and available start date. Final candidate(s) will be required to furnish official college transcripts. Send electronic applications to: pagorton@mtu.edu (preferred). Or, to apply by mail, send application materials to:

Further Information

Information about the School of Technology, along with the curriculum and course descriptions, can be found on-line at: <http://www.tech.mtu.edu/>.

At Michigan Technological University, sustainability informs research at a university-wide scale. Candidates who are also interested in research that fits within the theme of "Sustainability" should send a separate application for one of the ten growth positions in that area as described at www.mtu.edu/sfhi.

Michigan Technological University is an affirmative action, equal opportunity employer. The University is dedicated to the goal of building a culturally diverse and pluralistic faculty and staff committed to teaching and working in a multicultural environment and strongly encourages applications from women, minorities, individuals with disabilities and covered veterans.
